**March 27 & 28, 2010 ♥ York, PA**

The Primus Activation Healing Technique™ is an exciting and unique new approach to energy medicine. PAHT Incorporates cutting edge neurocardiology research with a new model of evolving human energetics that brings the body into an optimum energetic and biochemical state for physical and emotional healing, at the same time that it prepares the mind to experience powerful spiritual expansion. The technique can be used for personal spiritual growth, self healing or as a healing practice with others.

Developed by internationally known author & vibrational healing instructor Naisha Ahsian, this simple yet powerful technique allows both beginner and advanced healing practitioners from all modalities to understand the power of the heart's energetic field in both the healing process and the evolution of humanity.

***In this two-day certification workshop, participants will learn:***
